**Abstract.** You should leave 8 mm of space above the abstract and 10 mm after the abstract. The heading Abstract should be typed in bold 9-point Arial. The body of the abstract should be typed in normal 9-point Times in a single paragraph, immediately following the heading. The text should be set to 1 line spacing. The abstract should be centred across the page, indented 17 mm from the left and right page margins and justified. It should not exceed 300 words.

## 1 Submitting the manuscript

These guidelines, written in the style of a submission to *LCPIS 2019 Proceedings*, explain how to prepare your paper using Microsoft Word. Please submit your files directly to the conference organizers. The paper should not exceed 10 pages.

If the organizers chose to provide print-ready PDF documents to the publisher, you have to submit high-resolution PDF file with all fonts embedded (see [PDF guidelines](#)). In this case, please remember that no final corrections will be made by the publisher. If the organizers chose to use an editorial secretary from the publisher to manage the copy-editing, please send the source files to the conference organizers.

Please send also to the organizers the [license agreement](#) signed by at least one author of the article.

## 2 Page layout

Use 170 x 250 mm paper size (W x H mm) and adjust the margins to those shown in the Table 1. The final printed area will be 130 x 210 mm. Insert “Language and Communication Postgraduate International Seminar (LCPIS) 2019” in even headers and the short form title of the conference in odd headers, except the first one. Please check with the organisers the exact short form title of the conference.

**Table 1.** Setting Word's margins.

<b>Margin</b>	<b>mm</b>
Top	20
Bottom	16
Left	20
Right	20

Do not add any page numbers to your paper. The articles will be quoted as follows: LCPIS 2019 **2** (2019) 01002, **2** corresponding to the volume and 01002 to the number of the article (replacing thus the page number).

## **2.1 Formatting the title, authors and affiliations**

### *2.1.1 Formatting the title*

The title is set in bold 16-point Arial, flush left, unjustified. The first letter of the title should be capitalised with the rest in lower case. You should leave 35 mm of space above the title and 6 mm after the title.

### *2.1.2 Formatting author names and author affiliations*

Author names should be typed in 10-point Times. The style for the names is First Names then Last Name, with a comma after all except the last author, which is separated by comma + "and". Do not use academic titles.

Affiliations of authors should be typed in italic 9-point Times. They should be preceded by a numerical superscript corresponding to the same superscript after the name of the author concerned. Please ensure that affiliations are as full and complete as possible and include the country.

## **2.2 Formatting the text**

The text of your paper should be formatted as follows:

- 10-point Times, Times Roman or Times New Roman.
- The text should be set to single line spacing.
- Paragraphs should be justified.
- The first paragraph after a section or subsection should not be indented; subsequent paragraphs should be indented by 5 mm.

The use of sections to divide the text of the paper is optional and left as a decision for the author. Where the author wishes to divide the paper into sections the formatting shown in Table 2 should be used.

**Table 2.** Formatting sections, subsections and subsubsections.

	Font	Spacing	numbering
Section	12-point <b>Arial bold</b>	6 mm before 3 mm after	1, 2, 3, etc.
subsection	10-point <b>Arial bold</b>	6 mm before 3 mm after	1.1, 1.2, 1.3, etc.
subsubsection	10-point <i>Arial Italic</i>	6 mm before 3 mm after	1.1.1, 1.1.2, 1.1.3, etc.

### 3 Figures and tables

Figures and tables, as originals of good quality and well contrasted, are to be in their final form, ready for reproduction, pasted in the appropriate place in the text. Try to ensure that the size of the text in your figures is approximately the same size as the main text (10 point). Try to ensure that lines are no thinner than 0.25 point.

#### 3.1 Captions/numbering

Captions should be typed in 9-point Times. They should be centred above the tables and flush left beneath the figures.

#### 3.2 Positioning

Place the figure as close as possible after the point where it is first referenced in the text. If there is a large number of figures and tables it might be necessary to place some before their text citation.

**Fig. 1.** Caption of the Figure 1. Below the figure.

#### 3.3 Colour illustrations

You are free to use colour illustrations for the online version of the proceedings but any print version will be printed in black and white unless special arrangements have been made with the conference organiser. Please check whether or not this is the case. If the print

version will be black and white only, you should check your figure captions carefully and remove any reference to colour in the illustration and text. In addition, some colour figures will degrade or suffer loss of information when converted to black and white, and this should be taken into account when preparing them.

## 4 Equations and mathematics

Equations should be centred and should be numbered with the number on the right-hand side.

$$T_i(l,t) = T_e(l,t) \quad (1)$$

$$T_i(l,t) = T_e(l,t) T_b(x \rightarrow -\beta, t) = 0 \quad (2)$$

Use italics for variables (*u*) and bold (**u**) for vectors. The order for brackets should be  $\{[()]\}$ , except where brackets have special significance.

The acknowledgements should be typed in 9-point Times, without title.

## References

Online references will be linked to their original source, only if possible. To enable this linking extra care should be taken when preparing reference lists.

References should be cited in the text by placing sequential numbers in brackets (for example, [1], [2, 5, 7], [8-10]). They should be numbered in the order in which they are cited. A complete reference should provide enough information to locate the article. References to printed journal articles should typically contain:

- The authors, in the form: initials of the first names followed by last name (only the first letter capitalized with full stops after the initials),
- The journal title (abbreviated),
- The volume number (bold type),
- The article number or the page numbers,
- The year of publication (in brackets).

Authors should use the forms shown in Table 3 in the final reference list.

**Table 3.** Font styles for a reference.

Element	Style
Authors	Normal Initials followed by last name
Journal title	Normal Abbreviated
Book title, Proceedings title	Italic
Volume number	Bold
Page number	Normal
Year	Normal In brackets
